JANUARY 2024: TUSCAN AIRPORT SYSTEM'S PASSENGER TRAFFIC UP +8.6% COMPARED TO 2023
Florence airport's best January ever

Florence, February 9, 2024 – The Tuscan Airport System handled over 460,000 passengers overall in January 2024, up +8.6% on January 2023. The passenger traffic increase was driven by the rise both in the number of total flights (+6.0% compared to January 2023) and in the load factor (i.e., the percentage of available seating capacity filled with passengers), which rose by over 2 percentage points compared to January 2023, increasing from 79.0% to 81.2%.

Florence Amerigo Vespucci airport
With almost 195,000 passengers, Florence airport reported an all-time record for January, with a +32.4% rise compared to 2023. The increase was attributable to the performance in terms of total flights (+20.4%) and of the load factor (78.0%; +4.7 pps). Traffic grew both in the national (+123.5%) and international (+23.4%) segments. The most popular destinations among Florence airport's passengers in January 2024 were Paris, Amsterdam, Rome, London and Barcelona.

Pisa Galileo Galilei airport
With over 265,000 passengers handled in January 2024, Pisa airport's passenger traffic declined by 4.1% compared to the same month of 2023. This change was due to the decrease in the number of total flights for the period (-6.9%), partly offset by the load factor increase to 83.7% (+1.2 pps). In detail, the increase in international scheduled traffic (+5.6%) partially offset the decline in the national component (-19.6%). The ranking of the most popular destinations in January 2024 included Tirana, London, Palermo, Catania and Paris.

***

Toscana Aeroporti S.p.A. *is the management company of the Florence and Pisa airports. Founded on 1 June 2015 through the merger of AdF - Aeroporto di Firenze S.p.A. (managing company of the Florence A. Vespucci airport) and SAT - Società Aeroporto Toscano S.p.A. (managing company of the Pisa G. Galilei Airport), Toscana Aeroporti S.p.A. stands out for the complementary nature of the two airports, each with its own specific features: Florence airport focuses on the development of business and leisure traffic through full-service carriers, linking the major European hubs; whereas Pisa airport focuses mainly on tourism traffic operated by low-cost carriers and on cargo flights, paying particular attention to intercontinental connections. The Tuscan Airport System is one of the most important in Italy and is a driver of local economic development in one of the world's best known and most loved regions.*
