

**PRESS RELEASE**

OVER 6.7 MILLION PASSENGERS HANDLED IN 2022,  
UP 137% ON 2021 AND EQUAL TO 81.4% TRAFFIC FOR 2019,  
A RECORD YEAR FOR TOSCANA AEROPORTI

*Traffic results recovered significantly, nearing pre-pandemic levels,  
for both Florence and Pisa airports.*

*Florence, January 13, 2023* – In 2022, the Tuscan Airport System handled 6,722,846 passengers, up 137% compared to 2021. Despite the spread of the Omicron variant at year-start, the results reported in the subsequent months allowed the Tuscan Airport System to close 2022 reaching 81.4% of the volumes reported in 2019, which had been a **record** year for Toscana Aeroporti.

An even stronger recovery was recorded in terms of number of flights (68,893), which reached 87.3% of pre-pandemic levels.

In detail, in 2022 the number of passengers on national flights reached 87.9% of those reported in 2019, whereas international passengers – which have always been prevalent in the Tuscan Airport System and have been more strongly penalized by travel restrictions – reached 79.4% of the pre-pandemic volume.

The load factor of scheduled traffic also increased sharply (+11.7 percentage points) from 68.4% in 2021 to 80.1% in 2022, significantly nearing the 2019 figure (83.9%).

With 14,907 tons of carried goods in 2022, cargo traffic also performed well, with a +13.1% compared to 2019 volumes.

#### Pisa Galileo Galilei airport

In 2022, Pisa airport handled 4,493,847 passengers, with a 124.8% increase compared to 2021 and an 83.4% recovery on 2019 (pre-Covid). The increase compared to 2021 was confirmed by the uptrend in terms of total flights (+61.0%) and the 81.6% load factor of scheduled traffic (+11.6 pps). As a result of the easing of mobility restrictions in several foreign countries, international commercial passenger traffic grew more (+179% compared to 2021) than the national component (+59.4%), within a context where international traffic accounted for 68.2% of total traffic. The top five most popular destinations in 2022 were London, Catania, Palermo, Tirana and Paris.

With 14,767 tons of carried goods and mail, cargo traffic declined by 3.2% compared to 2021, but rose by 13.5% on 2019 (pre-Covid).

#### Florence Amerigo Vespucci airport

In 2022, Florence airport handled 2,228,999 passengers, up 166.0% on 2021 and recovering by 77.6% compared to 2019 traffic volumes. In this regard, it bears recalling that Florence airport had been closed in February and March 2021 for flight infrastructure maintenance works. The increase compared to 2021 was driven by the positive performance of total flights (+93.1%) and the 77.4% load factor of scheduled traffic (+12.4 pps). In 2022, international passenger traffic grew more (+175.8%) than the national component (+91.4%), accounting for 92.1% of total traffic. In fact, the top five most popular destinations among Florence airport's passengers in 2022 were all served by international flights, namely Paris, London, Amsterdam, Munich and Barcelona.

\*\*\*

*Toscana Aeroporti S.p.A. is the management company of the Florence and Pisa airports. Founded on 1 June 2015 through the merger of AdF - Aeroporto di Firenze S.p.A. (managing company of the Florence A. Vespucci airport) and SAT - Società Aeroporto Toscano S.p.A. (managing company of the Pisa G. Galilei Airport), Toscana Aeroporti S.p.A. stands out for the complementary nature of the two airports, each with its own specific features: Florence airport focuses on the development of business and leisure traffic through full-service carriers, linking the major European hubs; whereas Pisa airport focuses mainly on tourism traffic operated by low-cost carriers and on cargo flights, paying particular attention to intercontinental connections. The Tuscan Airport System is one of the most important in Italy and is a driver of local economic development in one of the world's best known and most loved regions.*
